

Program

Thursday, 07th of October 2010

04:00 pm Board for Certification - "Accredited Anaplastologist of the IASPE"

Friday, 08th of October 2010

11: 30 am Opening Reception - Registration

01:00 pm Welcome and opening adress
President Dr. Dr. Hubert Ofner, Linz, Austria

02:00-02:30 pm Master Lecture
Die soziale Bedeutung von Gesichtsentstellungen im Laufe der
Geschichte
A. Renk, Würzburg

BREAK Tea/Coffee & Trade Exhibition

03:00-04: 30 pm 1th Scientific Session (Lecture 1-6)

Session Chairman: H.-U. Klapper | K. Menzel

L-1 "The basalioma in the central mid-face from surgical restoration to
epithetic-prosthetic treatment - a case report"
H. Ofner, Linz

L-2 When is it reasonable to perform extensive tumour surgery with
implant-retained prosthetic treatment in
a situation of palliation or questionable curability?
Ph. Federspil, Heidelberg

L-3 Psychosoziale Aspekte in der epithetischen Versorgung von
Kindern mit Franceschetti-Syndrom,
S. Dehnbostel, Nienhagen

Questions / Discussion

Session Chairman: H. Ofner | F. Mayrhauser

L-4 The traumatized soul and the resulting fears of a patient with a tumor
in his face
W. Roschmann, Ulm

L-5 Sufficient, functional and economic - The paradox phenomenon of
the "Uncanny Valley" as quality standard in epithetics"
Y. Motzkus, Berlin

L-6 "Psychosocial aspects in surgical prosthetics and epithetics to
reconstruct orbital defects"
C. Höpner, Heidelberg

Questions / Discussion

BREAK Tea/Coffee & Trade Exhibition

05:00-06:00pm Poster Session with Canapés & Drinks

P-1 Outpatient care of a patient with Alzheimers disease carrying an inoperable basalioma living in a nursing home

I. Schürer, Iffelsdorf

P-2 The use of Epitheses for Disfigurement Concealment in Palliative Care

I. Wille, Iserlohn

P-3 Facial Defects after Noma Infection and Burn Injuries in INTERPLAST-Patients

A. Borsché, Bad-Kreuznach

P-4 Supply of orbital defects with surgical prosthesis and epithetics while maintaining structures of the eyelid

C. Höpner, Heidelberg

P-5 Intra- and extraoral implantretained rekonstruktion after halfside facial defect (Part A-B-C)

A) Surgical – B. Al-Nawas, Mainz

B) Intraoral rekonstruktion - *J. Wegnener, Mainz*

C) Epithetic rekonstruktion – J. Brom, Heidelberg

P-6 Prothetische Sofortversorgung nach Maxillectomie

G. Bran, Mannheim

P-7 Prosthetic rehabilitation of the area lower-jaw-maxilla and cheek

J. Brom, Heidelberg

P-8 Planning of implant positioning for the seating of ear epitheses on the basis of digital data

K. Ullmann, Dresden

P-9 The digital Volumentomography as planning facility for epithetic treatment of craniofacial defects by the means of bone mounted fixation of epithesis

U. Gertler, Kiel

06: 15pm IASPE Buisness Meeting for IASPE-Members only

08:30 pm Get Together, Restaurant Stefan Stubm - www.stubm.at

Saturday, 09th of October 2010

8:30 am Opening Reception

9:00-10:30 am 2nd Scientific Session (Lecture 7-15)

Session Chairman: C. Höpner | I. Schürer

L-7 To be a burn victim is no part-time hobby
M. Stickler, Linz

L-8 Burn injuries of the face lead to lifelong stigmata with partly irreversible effects on the body perceptions and especially on the social life of the patients
P. Monticelli, Bad-Kreuznach

L-9 Managing difficulties of facial prosthetic reconstructions in case of a burnt face
K. Menzel, Berlin

L-10 Rehabilitation of facial disabled persons in general , and from fire victims in particular
F. Raithel, Hockenheim

Questions / Discussion

Session Chairman: Ph. Federspil | J. Brom

L-11 The possible role of a psychologist in treatment decisions on extensive maxillofacial surgery
Van Linden, Netherlands

L-12 Guest Lecture
IMPT, UK

L-13 Rehabilitation of complex craniofacial cases and psychological effects
A-M. Riedinger, France

L-14 Aetiology and Incidence of Cranioplasties in the Birmingham region
S. Edmondson, Birmingham

L-15 Magnet Retained Facial Prosthetic Rehabilitation
A. Bokka, Swansea

BREAK Tea/Coffee & Trade Exhibition

11:00-12:30 am 3rd Scientific Session (Lecture 16-21)

Session Chairman: A. Renk | Y. Motzkus

L-16 The new 3-D Scanner-Centre of AKH Linz
Ch. Kreuzer, Linz

L-17 Methods of individual reconstruction of the mandible
J. Markward, Dresden

L-18 Development of an individualized stomabutton on the basis of digitized data
R. Müller, Dresden

Questions / Discussion

Session Chairman: B. Reitemeier | F. Mayrhauser

L-19 Partial Auricular Prosthesis, fixated through retention abilities of existing ear tissue
U.-Y. Choi, Leverkusen

L-20 Pressure clips for the auricle – therapy and prophylaxis of keloids
G. Bran, Mannheim

L-21 The use of special nose olives with the interdisciplinary therapy of children with Morbus Crohn at the university clinic of Leipzig
H.-U. Klapper, Leipzig

Questions / Discussion

12: 30 am End of Scientific program

Lunch

02:00-05:00 pm Courses

A) The new 3D-scanner Centre of AkH Linz
Ch. Kreuzer

B) Straumann GmbH
"Extraoral epithetic Fixation with the Straumann-Implantsystem – Hands-on
with acrylic modells"
R. Eisenheim

C) Steco Systemtechnik
Course 1 " Titanmagnetics: New ideas for an approved application "
Course 2 " Implant planning: Better positions, better Prosthesis "

H. Stemman

D) Medicon
„Epiplating-System – Hands-on“ – G. Widmaier

E) Technovent
„The new Magnet Extra-strength-System“ - M. Waters

F) Cosmesil.de
„Silicone & Gel – Hands-on“ – A. Bokka

05:10 pm End of 20th Congress of IASPE

06:30 pm Social evening Event „Night-Watchman Dine-around in Steyr“
